PROFILE SUMMARY

Python Backend & Web Developer with hands-on experience building **Flask-based applications, REST APIs, and MySQL-backed systems**. Strong in writing clean Python code, implementing backend logic, integrating databases, and delivering reliable web modules. Focused on **Python development and web backends** rather than research-heavy AI/ML roles. Seeking **Python Developer / Backend Developer** positions.

PROFESSIONAL EXPERIENCE

Software Developer Intern

Besant Technologies

01/2025 – 06/2025
OMR Branch, Chennai

Software Developer Intern — Besant Technologies

March 2025 – August 2025 | Chennai

- Built backend modules using Python and Flask/Django.
- Developed responsive UI using HTML and CSS.
- Designed MySQL databases and integrated with web applications.
- Assisted in developing REST APIs and microservice-based training projects.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java

Web Technologies: HTML5, CSS3, Flask, REST APIs

Databases: MySQL

Python Libraries: NumPy, Pandas

Backend Concepts: API design, validation, error handling, authentication basics

Tools & Platforms: Git, GitHub

Development Practices: SDLC, Agile Methodology

PROJECTS

AI Pose Detection System

Tech: Python, OpenCV, MediaPipe

- Built a real-time pose detection system using MediaPipe to extract body landmarks.
- Implemented frame processing and pose accuracy checks for posture correction.
- Optimized detection pipeline for smooth real-time inference using webcam input.

User Management Web Application

Tech: Python, Flask, MySQL, HTML, CSS

- Developed a full-stack web application using **Flask** to manage user registration, login, and profile data.
- Implemented **RESTful routes**, form validation, and server-side error handling.
- Designed and integrated a **MySQL database** to perform CRUD operations securely.
- Structured the backend with modular Python code for scalability and maintainability.

EDUCATION

B.Tech in Information technology,

T. J Institute of Technology — CGPA: 8.8 | 2025

HSC, Sri V.R.V. Matric Higher Secondary School — 90% | 2021

SSLC, Sri V.R.V. Matric Higher Secondary School — 87% | 2019

CERTIFICATION

Python programming

Besant Technologies-Jun2025

AI Programmer Course

TN Skill -Dec2025

MYSQL

Besant Technologies-Feb 2024
